Professional Summary

Senior Full-Stack Engineer with **5+ years** of experience building high-performance enterprise applications in healthcare logistics, digital publishing, and AI platform solutions. Deep expertise in **Angular (v13–19)**, **RxJS**, **NgRx**, and modular Nx monorepos, coupled with strong backend capabilities in **.NET 8/9** (ASP.NET Core, EF Core) and serverless **Cloudflare Workers** (Hono, D1 SQLite, Drizzle ORM). Proven track record of architecting real-time geospatial UI systems handling 10,000+ live markers, enforcing 80%+ automated test coverage (Cypress, Jasmine/Karma), and leveraging agentic AI workflows (Cursor, Claude Code, Codex, MCP) to accelerate development velocity.

Technical Skills

Frontend Engineering: Angular 13–19 (Expert), RxJS, NgRx, Standalone Components, Micro-Frontends, React.js, Next.js, Ionic/Capacitor, Tailwind CSS, PrimeNG, Angular Material, Leaflet.js.

Backend & Cloud: .NET 8/9, ASP.NET Core, C#, EF Core (Code First), SQL Server, Cloudflare Workers, Hono, D1 (SQLite), Drizzle ORM, RESTful APIs, JWT, OpenRouter AI, Clerk Auth.

Architecture & Quality: npm/pnpm Monorepos, Nx, Clean Architecture, CQRS, SOLID, Jasmine/Karma, Cypress (E2E), MS Test, CI/CD pipelines, Docker.

AI & Productivity Tooling: Cursor, Claude Code, Codex, Model Context Protocol (MCP), Agentic Workflows, Automated Code Review & Test Scaffolding.

Work Experience

Senior Full-Stack Developer — **Sep 2022 – Present**
PharmaBits (EU Pharmacy Logistics & Workflow Software) — *Yerevan, Armenia / Remote*

- **Angular Architecture Leadership:** Lead frontend engineer for core pharmacy logistics product (*Apoteek Logistiek* / APL), architecting RxJS data streams, NgRx state management, and standalone components across high-volume prescription and inventory systems.
- **Full-Stack .NET Expansion:** Extended engineering scope into backend microservices across ASP.NET Core and EF Core, developing C# REST APIs, data modeling, and shared NuGet packages for regulated healthcare workflows.
- **High-Scale Geospatial UI:** Engineered real-time courier tracking engine using Leaflet.js and RxJS chunking, rendering 10,000+ active map markers at sub-60fps smoothness on low-spec hardware.
- **Automated Test Coverage:** Enforced 80%+ automated test coverage across critical frontend modules with Jasmine/Karma and Cypress, eliminating regression defects during major Angular upgrades (v13 to v19).
- **AI-Driven Velocity:** Integrated agentic AI tools (Cursor, Claude Code, custom MCP server scripts) into daily engineering routines for rapid API contract validation, refactoring, and test generation.

PWA & E-Commerce Developer — **Dec 2021 – Sep 2022**
Ketab.ir / BazarKetab (Digital Publishing Marketplace) — *Tehran, Iran*

- **Offline-First PWA:** Built offline-first Angular + Ionic Progressive Web Application with Service Workers, background sync, and push notifications for digital book marketplace.
- **Monorepo Vendor Tooling:** Developed high-throughput vendor dashboard inside an Nx Monorepo for real-time catalog management, inventory tracking, and sales analytics.

Frontend Developer — **Mar 2020 – Feb 2021**
Zagros System (Software House & Agency) — *Tehran, Iran*

- **React & Client Web Apps:** Developed responsive client-facing applications using React.js and modern ES6+ JavaScript, working directly with client stakeholders in an agile delivery model.

Featured Full-Stack Projects

PhysioCoach AI – AI Physical Therapy Monorepo https://physiocoach.otconnect.ir
Cross-platform physical therapy coaching monorepo. Features dynamic onboarding, AI workout plan generation with JSON schema validation, and deterministic fallbacks.
Monorepo Stack: Angular PWA + Capacitor (*web*), Hono Cloudflare Worker API (*api*), D1 Database, Drizzle ORM, Clerk Auth, OpenRouter AI, npm Workspaces.

OT-Assistant – Occupational Therapy Monorepo https://github.com/rasoulveisi/ot-assistant
Comprehensive OT assistant monorepo automating client intake, AI-driven daily activity plan generation, and clinical progress tracking.
Monorepo Stack: Angular 19 (*web*), Hono Cloudflare Worker API (*api*), D1 (SQLite), Drizzle ORM, Clerk Auth, OpenRouter API, npm Workspaces.

Job Craft – Evidence-Driven Career & Application Workspace https://job.otconnect.ir
Full-stack job tracking workspace storing applications, status updates, AI resume customization workflows, and Telegram notifications.
Tech Stack: Vite React 19, Cloudflare Worker (D1), Telegram Bot API, OpenRouter AI.

Cloudflare Angular Starter – Serverless Monorepo Template https://github.com/rasoulveisi/cf-boilerplate
Production-ready boilerplate for Angular frontends backed by Cloudflare Worker APIs with end-to-end TypeScript type safety.
Tech Stack: Angular, Hono, Cloudflare Workers, D1 Database, Drizzle ORM, pnpm Workspaces.

Education

M.Sc. Mechanical Engineering (Mechatronics) **2019 – 2022**
Isfahan University of Technology *Thesis: AI-Based Predictive Control using Machine Learning for Dynamic Systems*

B.Sc. Biosystems Mechanical Engineering **2015 – 2019**
Razi University
