About Me

Results-driven **Frontend Developer** with **5+ years of experience** delivering high-performance web applications in healthcare and e-commerce domains. **Expert in Angular ecosystem** with deep expertise in RxJS, state management, Angular Material, and scalable modular architecture. **Proficient in React.js** for modern frontend development. Proven track record in building enterprise-grade applications with performance optimization for large-scale systems.

Work Experience

Frontend Web Developer **Sep 2022 – Present**
BlueBitSoft • Healthcare Technology Company

- Built Angular modules for inventory, prescriptions, QR/barcode scanning with state management
- Refactored 30% of legacy codebase using standalone components and OnPush CD strategies
- Designed scalable modular architecture with lazy loading and reusable component library
- Utilized RxJS for reactive data streams and real-time updates
- Collaborated with .NET backend team for API integration and data modeling
- Wrote 300+ tests and enforced CI test pipelines with Cypress/Jasmine for comprehensive coverage

Technologies: Angular 13–19, RxJS, NgRx, PrimeNG, CouchDB, Leaflet.js, .NET, Jasmine, Karma, Cypress, REST API

PWA & E-Commerce Platform Developer (Part-time) **Dec 2021 – Sep 2022**
Ketab.ir • *BazarKetab.ir* • Digital Publishing and E-commerce Platform

- Architected Progressive Web Application for e-commerce platform with offline functionality
- Built comprehensive vendor dashboard using Angular and Ionic for inventory management and analytics
- Implemented advanced PWA features including service workers and push notifications

Technologies: Angular, Ionic, PWA, Angular Material, NX, TypeScript, HTML5, CSS3, Service Workers

Frontend Developer (Intern) **Mar 2020 – Feb 2021**
Zagros System • Software Development Company

- Developed responsive web interfaces using HTML5, CSS3, and JavaScript
- Collaborated with development teams on client projects

Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Git

Technical Skills

Frontend: Angular 16+ (Expert), Angular Material, NgRx, NX Monorepo
Languages: JavaScript (ES6+), TypeScript, Python, C#
Backend: .NET, REST APIs
State Management: RxJS (Reactive), Zustand, Redux, Context API
Testing: Jasmine, Karma, Cypress, Robot Framework
Tools: Git, Docker, CI/CD, Webpack, Vite
AI/ML: AI Chat Integration, PyTorch, Deep Learning
Styling: Tailwind CSS, Bootstrap, PrimeNG
Specialized: Scalable Architecture, Enterprise Applications, Performance Optimization

Education

M.Sc. Mechanical Engineering (Mechatronics) **2022**
Isfahan University of Technology, Iran
Thesis: AI-Based Predictive Control & Model Identification

B.Sc. Biosystems Mechanical Engineering **2019**
Razi University, Kermanshah, Iran

Featured Projects

Healthcare OT Evaluation System
Enterprise Angular application with dynamic forms, HIPAA-compliant data handling, and assessment management for healthcare providers.
github.com/rasoulveisi/HealthcareOT-EvaluationSystem

Angular Infinite Scroll Directive
Performance-optimized custom directive with virtual scrolling techniques and efficient memory management for enterprise applications.
github.com/rasoulveisi/Angular-InfiniteScroll-Directive

Rick & Morty DataTable
Advanced Angular data table with PrimeNG integration, real-time API consumption, and virtual scrolling for large datasets.
github.com/rasoulveisi/RickMorty-DataTable

PrimeNG DateRange Picker
Professional Angular 19 date picker component with Tailwind CSS styling and enterprise-grade validation for business applications.
github.com/rasoulveisi/PrimeNG-DateRangePicker
